RAISING PECANS IN THE PECOS VALLEY

From Denver Field and Farm.
The people of the Pecos Valley down in New Mexico have finally gotten the idea that they can produce the pecan there as a commercial proposition and are putting out the budded stock. Seedling pecans have been tried for years and they have grown well, but they are as uncertain as to what they will produce in the way of nuts, as a seedling peach. They may produce very inferior nuts and a dozen or more years are required after a tree is planted to find this out. The budded or grafted pecan, on the other hand, will begin to bear as early as an apple tree and the product is of a

known variety. The climate of the Pecos Valley is mild enough to grow various nuts and it is about time to pick up some of these things and thus help Teddy conserve the resources of the nation.

CLIMBS COURT HOUSE STEPS.

Automobile Performs Feat Creating Wild Excitement.
Special to the Dallas News.
Fort Worth, Tex., Dec. 19.—An automobile party of four from Dallas created something of a sensation this afternoon by climbing the steep steps of the Tarrant County court house in their car, a feat which is somewhat remarkable owing to the fact that the incline is not less than forty-five degrees and the light rain prevailing at the time made the steps slippery enough to make the accomplishment somewhat precarious as well as unusual.
The party consisted of J. O. Wharton of the Studebaker Company's Dallas sales staff; B. R. Webb, of Fort Worth, F. L. Estey of Chicago and George Meinzinger of Detroit. The car used was the E. M. F. "30."

The Cummins Garage has the agency for this great machine and has two carloads of autos of this make on their way to Roswell, which they expect to arrive any day.

MORE DETAILS OF THE PITTSBURG BRIBERIES

Pittsburg, Pa., Dec. 22.—The seven councilmen, charged with conspiracy and bribery, it is formally alleged, conspired with each other and with divers persons unknown, to secure the passage by corrupt means and the bribery of members of select and common councils, of ordinances and resolutions, designating depositors of the city bridge ordinances bonds for freeing the bridges between Pittsburg and Allegheny recently consolidated; of an ordinance for additional filter beds for the new filtration plant; of the Heberton street railway ordinance; of a resolution to pave portions of Fourth avenue with wood block and other ordinances pending before the council. All information was sworn to by Leonard DeWolf, secretary of the Voters' League, and a former political writer in local papers. Robert Wilson, superintendent of the Municipal League of Scranton, Pa., who is described as the "Man behind the Gurn," Wilson, assisted by a corps of private detectives whom he brought from Scranton, gathered evidence against the defendants. It is explained that in this manner the matter could be investigated with the least publicity. The Pittsburg police were not consulted until yesterday, when it was desired to make the arrests of the councilmen and bankers, who are to be given a preliminary hearing tomorrow. Another sensation developed today, when it became known that Director of Public Safety Lang, demanded the resignation of captain of detectives, Edwin T. McGough. Lang says the "demand has nothing to do with the arrest of the councilmen but is for another and more serious one," which he refused to discuss.

TARIFF HEARINGS ARE PROBABLY COMPLETED.

Washington, Dec. 22.—Unless it is decided to call further witnesses before it, the hearings of the House Ways and Means Committee have been completed. W. A. Clark, an expert on wool, connected with the Bureau of Manufacturers of the department of Commerce and Labor appeared before the committee today and gave a mass of figures relating to the cost of production of the wools in the various countries and supplied the committee with figures as to the shrinkage of shoddy and other materials. From the character of the questions asked him, it is evident a reduction of the duty on shoddy is favored, while it is hardly probable there will be any changes made in the woolen schedules generally.

DEFENDANTS HELD FOR TRIAL.

Pittsburg, Dec. 23.—The seven cases of alleged corruption in the cities councilmen were taken up this morning. The first was that of N. W. Ramsey and A. A. Vilsack, former president and cashier of the Germania National bank. National bank examiner Nesbitt was called to testify and he alleged that John Klein, a council-

man, approached the bankers about making the bank the city depository for a percentage and that later about \$17,000 disappeared from the bank in an interesting manner. Both defendants were held for trial on the alleged charges of conspiracy and bribery, and the bonds of \$14,000 for each were renewed.
